

# PEAK COMMUNITY SERVICES...MAKING DREAMS HAPPEN

---

## DON'S MESSAGE

Thanks to all who accepted our call to action and contacted local state

representatives regarding the proposal to drastically cut support services. At stake are the futures of thousands of people with disabilities. We genuinely appreciate your willingness to give voice to the independence, free will, and dignity of these individuals. As we learn of the state's intentions, we will keep you informed. Should you have questions or comments in the mean time, please do not hesitate to contact:
