

PRESS RELEASE

THRIVENT FINANCIAL FOR LUTHERANS MAKES DONATION TO PEAK COMMUNITY SERVICES

March 2007

For more than 100 years, Thrivent Financial for Lutherans has created programs and opportunities for Lutherans to support their congregations and institutions and reach out to their communities. Over the past 10 years, Thrivent Financial has provided more than \$1 billion for charitable, benevolent and educational purposes. This support includes grants, scholarships, disaster relief, matching-gift programs, youth programs, wellness resources, and more.

This year, the Cass/Carroll County Chapter of Thrivent Financial has provided support to many organizations. Among them is Peak Community Services. The chapter purchased an industrial paper cutter and several brooms and dustpans for the Work Services Program of Woodlawn Center.

Work Services provides light industrial services for local business and industry. The men and women employed at Work Services have developmental disabilities.

The paper cutter that was donated replaces another cutter that no longer has a good cutting edge. This contribution ensures that the employees of Work Services can continue to provide a great product for the businesses requiring this particular task.
